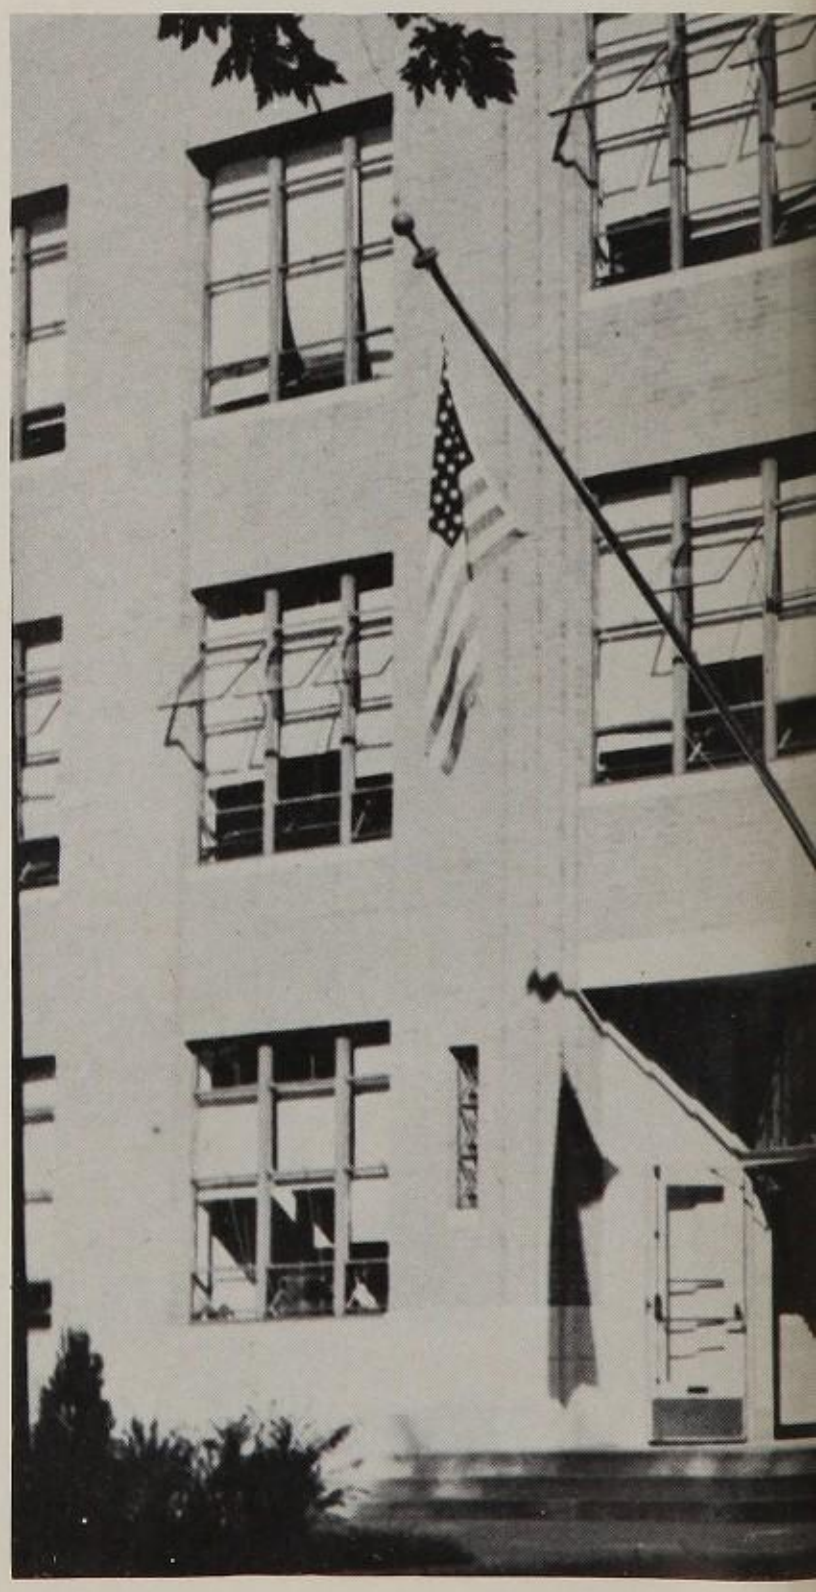
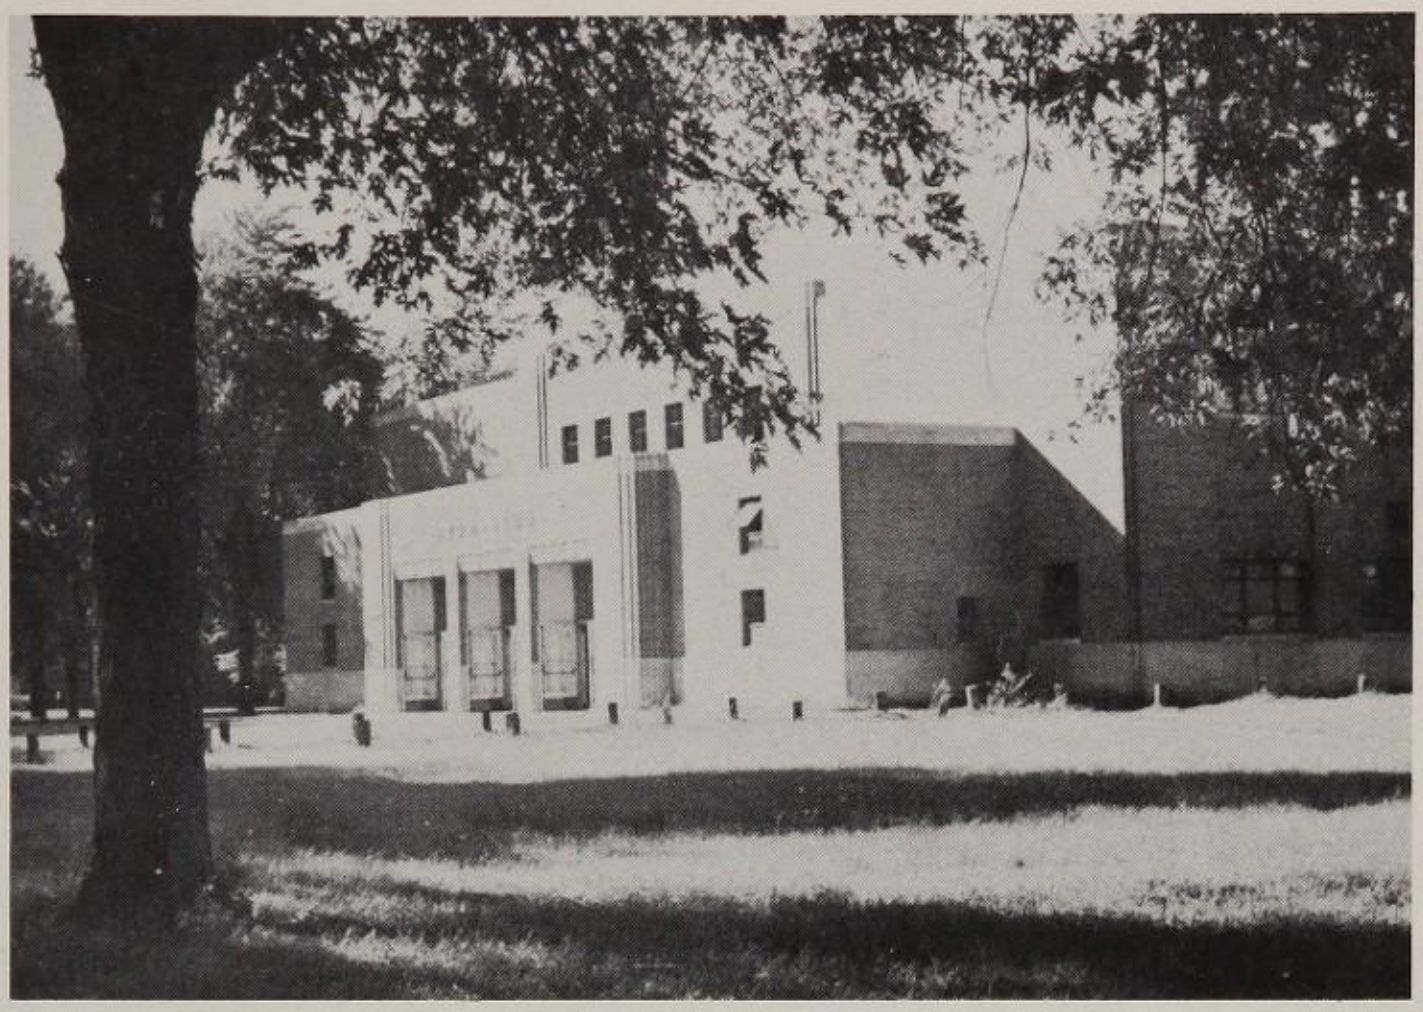
FOREWORD

In time of war people's thoughts turn to the postwar world. Some are merely curious as to what designs will be used in the cars, trains, airplanes and boats of the future. Others are interested in the ultra-modern cities of tomorrow whose homes may be so little like our own as to make comparisons with our present homes difficult. Some are eager to prepare themselves for an active part in the building and managing of the post-war world.

Everyone has his own ideas as to how the Cities of tomorrow should be built and operated. The plans for these future Cities will be an expression of thoughts of the men of ideas now living.

This book is a record of the vear's activities at Lanphier as we have taken another step in preparing ourselves to fill our places in this new world of tomorrow.





LANDPHIER
HIGH SCHOOL

LANPHIER HIGH SCHOOL

LANPHIER . . . How much this word has come to mean to those of us who have spent a few months—a few years within its walls.

As freshmen we entered in bewildered excitement, so much to try, so much to prove. As sophomores we had become so much a part of its activities that Lanphier had truly become our school. As juniors we knew the thrill of successful achievement in sports, in the arts, in scholarship; as seniors we realize how completely we have become a part of the school and the school has become a part of us.

Each has become merged into the something that we call school spirit. The friendships, the joys, the myriad pleasant memories that linger after the books are put away, after the last school friends have departed, these are the things that make Lanphier to us a great school—our school.

MR. J. C. WETZEL

DEDICATION

It is with real pleasure and sincere appreciation that the year book staff dedicates this 1944 issue of Lan-Hi to Mr. Wetzel. Few realize the time, planning and extra work necessary to make our year book such a complete pictorial record of the year's activities as this one is.

Mr. Wetzel has given his time, skill and enthusiasm unstintingly in preparing the pictures for this issue.

As you turn the pages of this book each picture of a class, a group activity, an exciting moment in a sports event, will give added reason for our having chosen to dedicate this book to Mr. Wetzel, photographer and teacher, our friend.

FACULTY

Springfield is a city of traditions of which we are justly proud. Lanphier is a school which has taken its place in helping to build a better City, a happier and more successful people. Our six hundred and fifty men now serving their country at war are making a glorious history. Let us make Lanphier an even better school so they may know that we have not failed them on the home front.

Sincerely,
G. E. Stickney

EM

DEPARTMENTS

SCIENCE

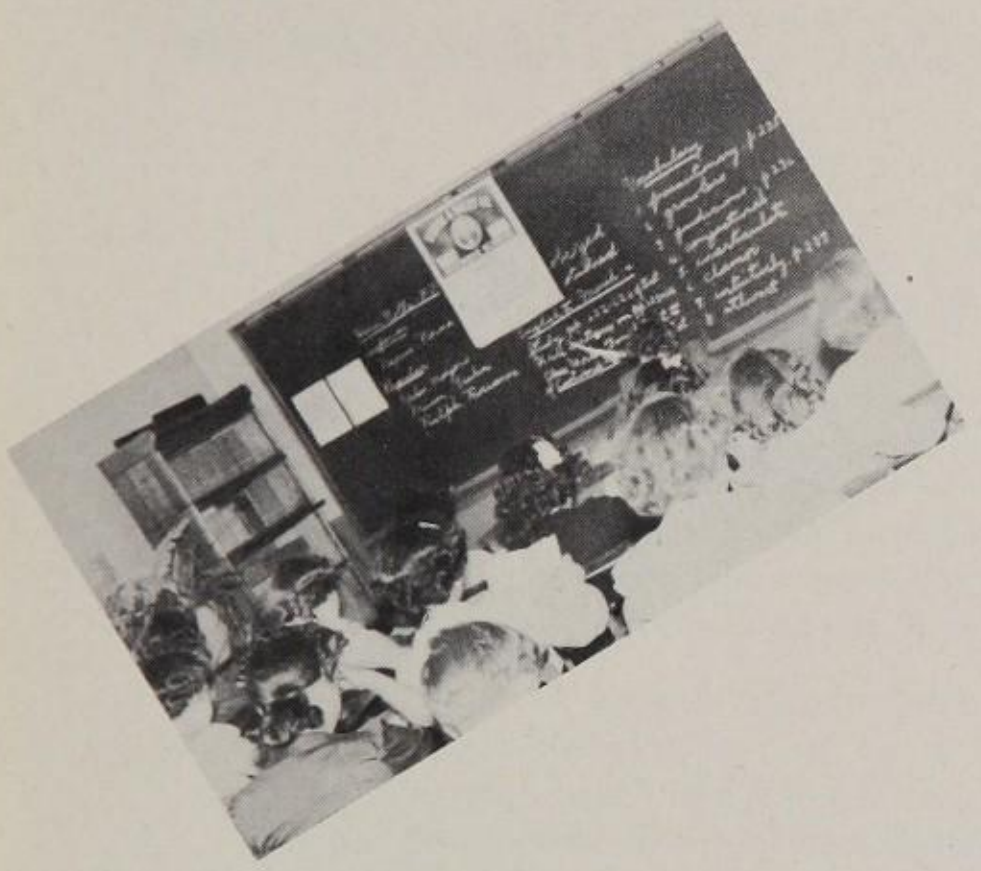
A new course in Aeronautics, a new science instructor, and a renewed emphasis on experimentation by students are features of the science department this year. The more than six hundred students registered in the department each semester will remember their efforts to make a St. Louis motor run steadily, their dissection of the earthworm, their first introduction to "Oscar," their first view of an airplane instrument panel, the long sparks they produced with the static machine, the first test tubes of pure oxygen they had generated, and the exhibit they prepared for the P. T. A.

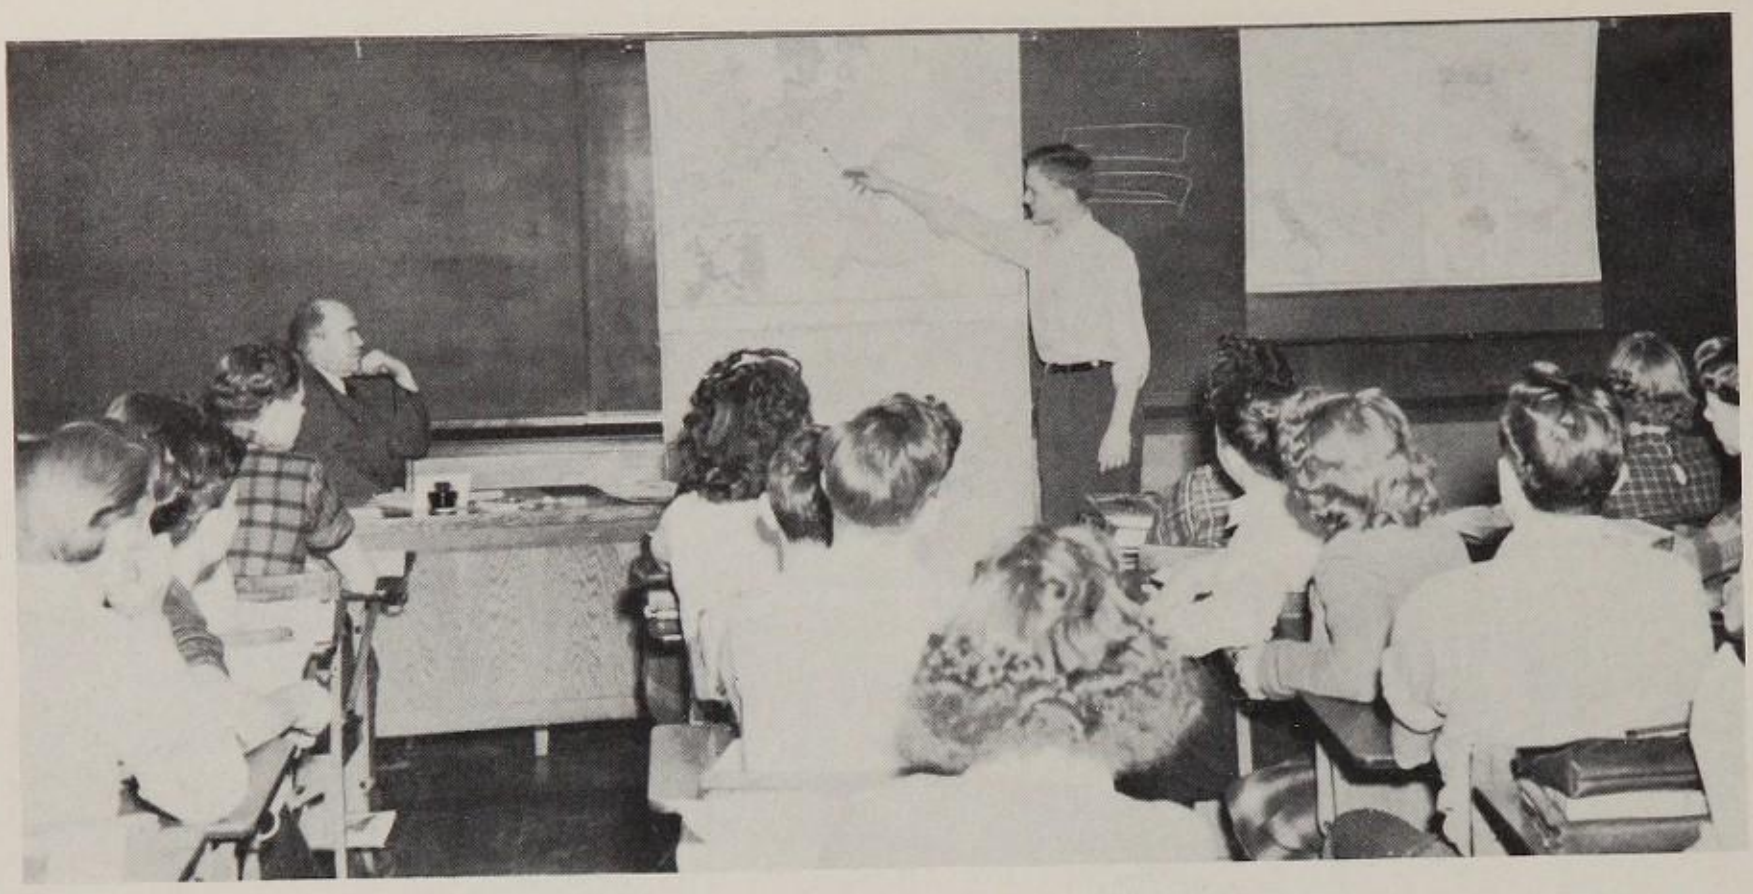
ENGLISH

In keeping with the times, the English department has this year placed more emphasis upon the literature of patriotism and American idealism. Two new sets of books added to the department are designed to increase the understanding and appreciation of our own country. REGIONAL AMERICA, by Lucas and Ansorge, supplements the sophomore literature course, which builds up through the reading of good literature a better understanding of the history, thought and life of the various localities in the United States. To this end the literature of various sections of the country, such as our own Middle West, the Deep South, the New England States, the Far West, and the Land of Lakes and Prairies is studied. In a similar manner the new book added to the junior literature course, IN AMERICA by Knight and Paul, helps the students to be more conscious of their heritage.

The discussion of current events and war problems has loomed large in the oral English classes. The reading of timely articles from current numbers of the READER'S DIGEST has had much to do with stimulating thought in these discussions.

All English classes, during these war years, have put greater emphasis upon thoroughness of preparation, whether in the learning of rules for punctuation and spelling or the study of correct form in the writing of papers and letters. Much more emphasis, too, has been placed upon the building of the vocabulary for greater efficiency in the reading and expression that the student will be called upon to do in the near future, either in the service of his country or in civilian life.





SOCIAL SCIENCE

The social studies department offers courses in World History, United States History, American Government, and Economics. The course in United States History is required by state law. Each course includes, besides the text work, special topics, historical fiction reports and current events. A minor in history is required for graduation.

The course in World History covers the history of man's progress throughout the world from earliest times to the present day. It acquaints the students with the past, which helps him to understand better the problems of today. The discussion of current affairs and world problems forms a part of each recitation period.

The course in United States History begins with the internal, commercial, political, and religious upheaval in Europe which led to the earliest immigrations to America, the subsequent strife between the colonies and the mother country, the evolution of the American form of government and the problems that arose between the states and the gradual forming of the solid union of the states.

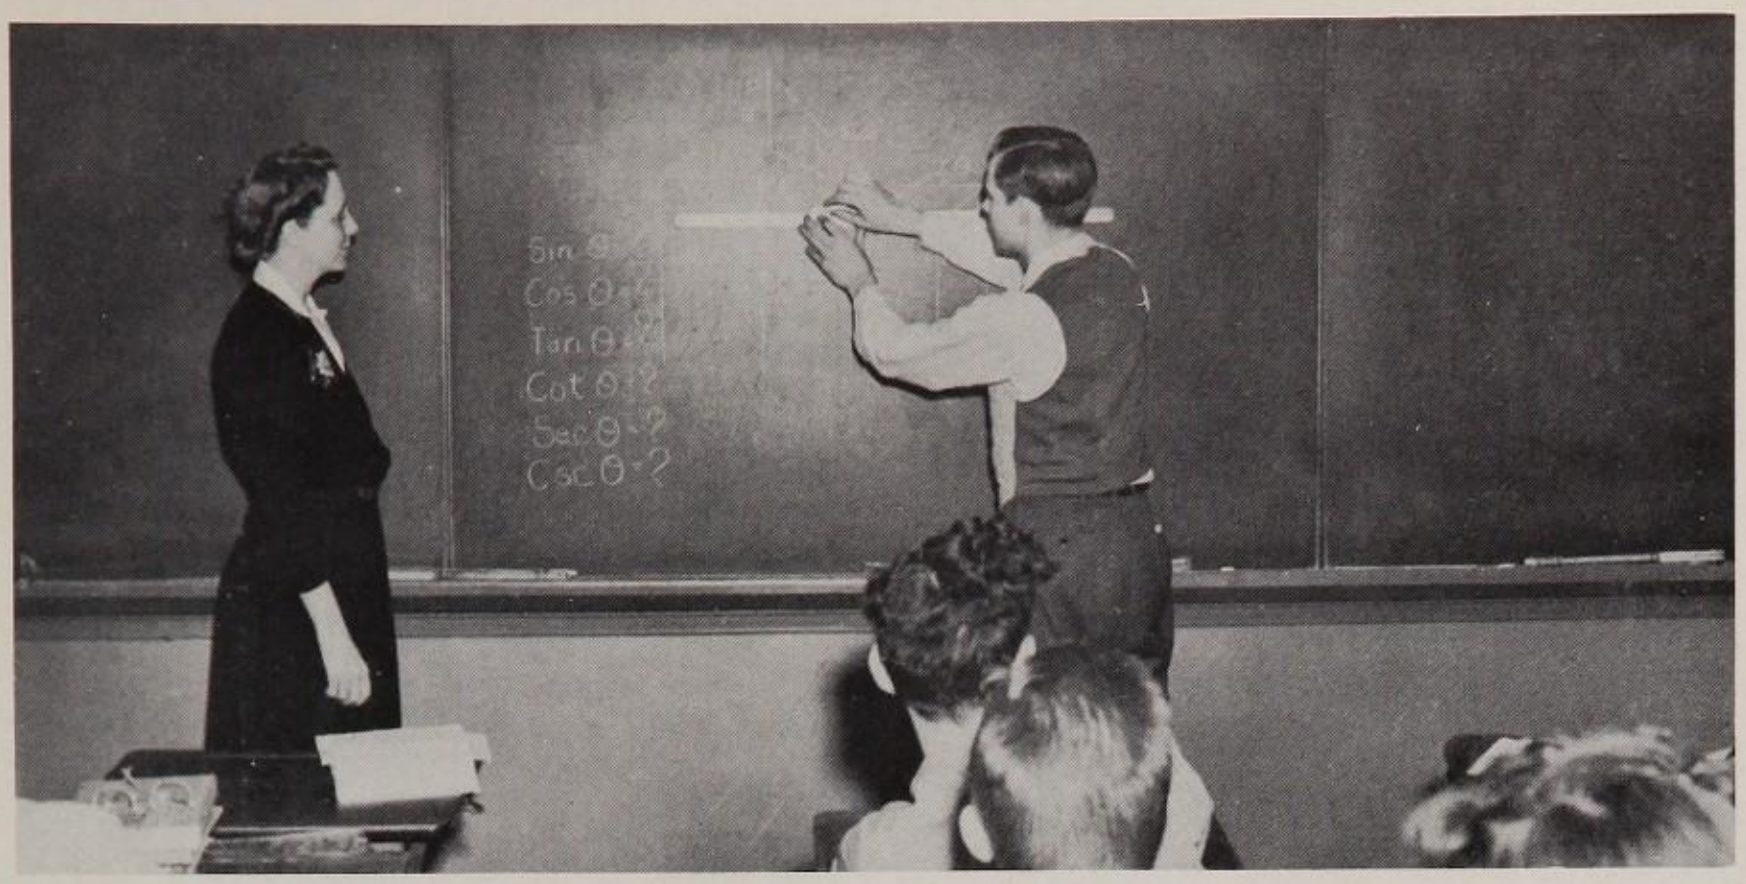
American Government is a study of federal, state, county, and city government. In the federal government the legislative, executive, and judicial departments are studied in detail so that students may better understand the actions of Congress, the President and his cabinet and the Supreme Court.

The course in Economics helps the student to a fundamentally sound understanding of the problems of living. Everything from automobiles to face powder is brought up for discussion and a basis of evaluation worked out.

HOME ECONOMICS

A major in Home Economics is a valuable preparation for a job, for personal accomplishment and for better living. It prepares a girl to do better those desirable things which she will inevitably do.

The freshman student takes a composite course called HOMEMAKING. This consists of short units of various phases of Home Economics. FOODS and CLOTHING are offered for the more advanced student. The Vocational Homemaking program is in effect at Lanphier. This permits the teachers to visit the homes of students and supervise summer home projects.

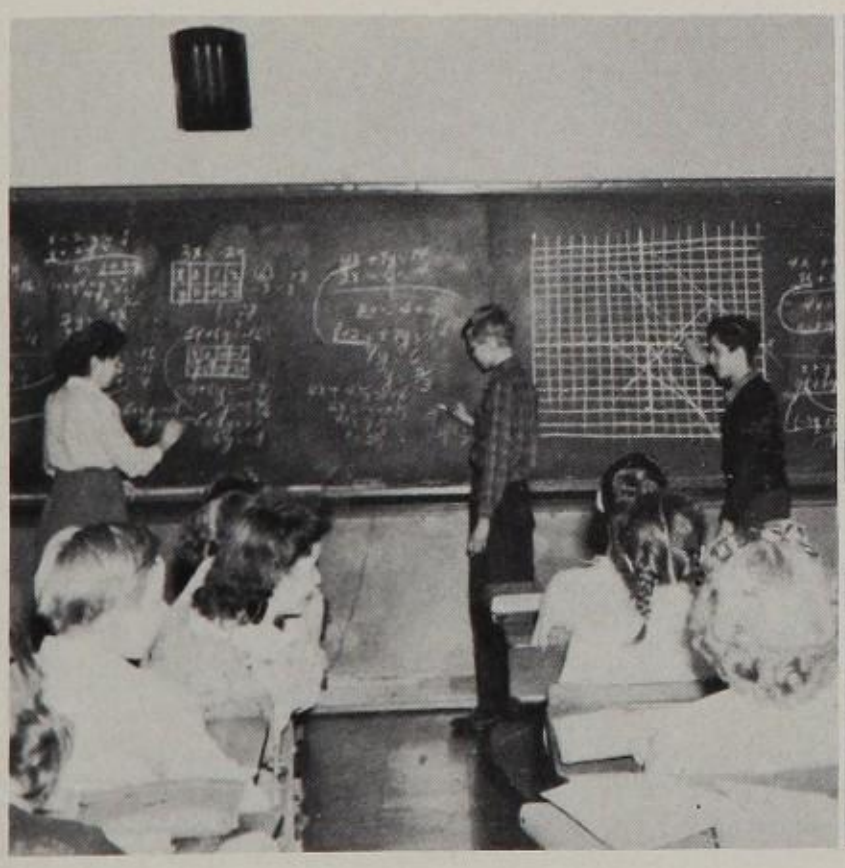


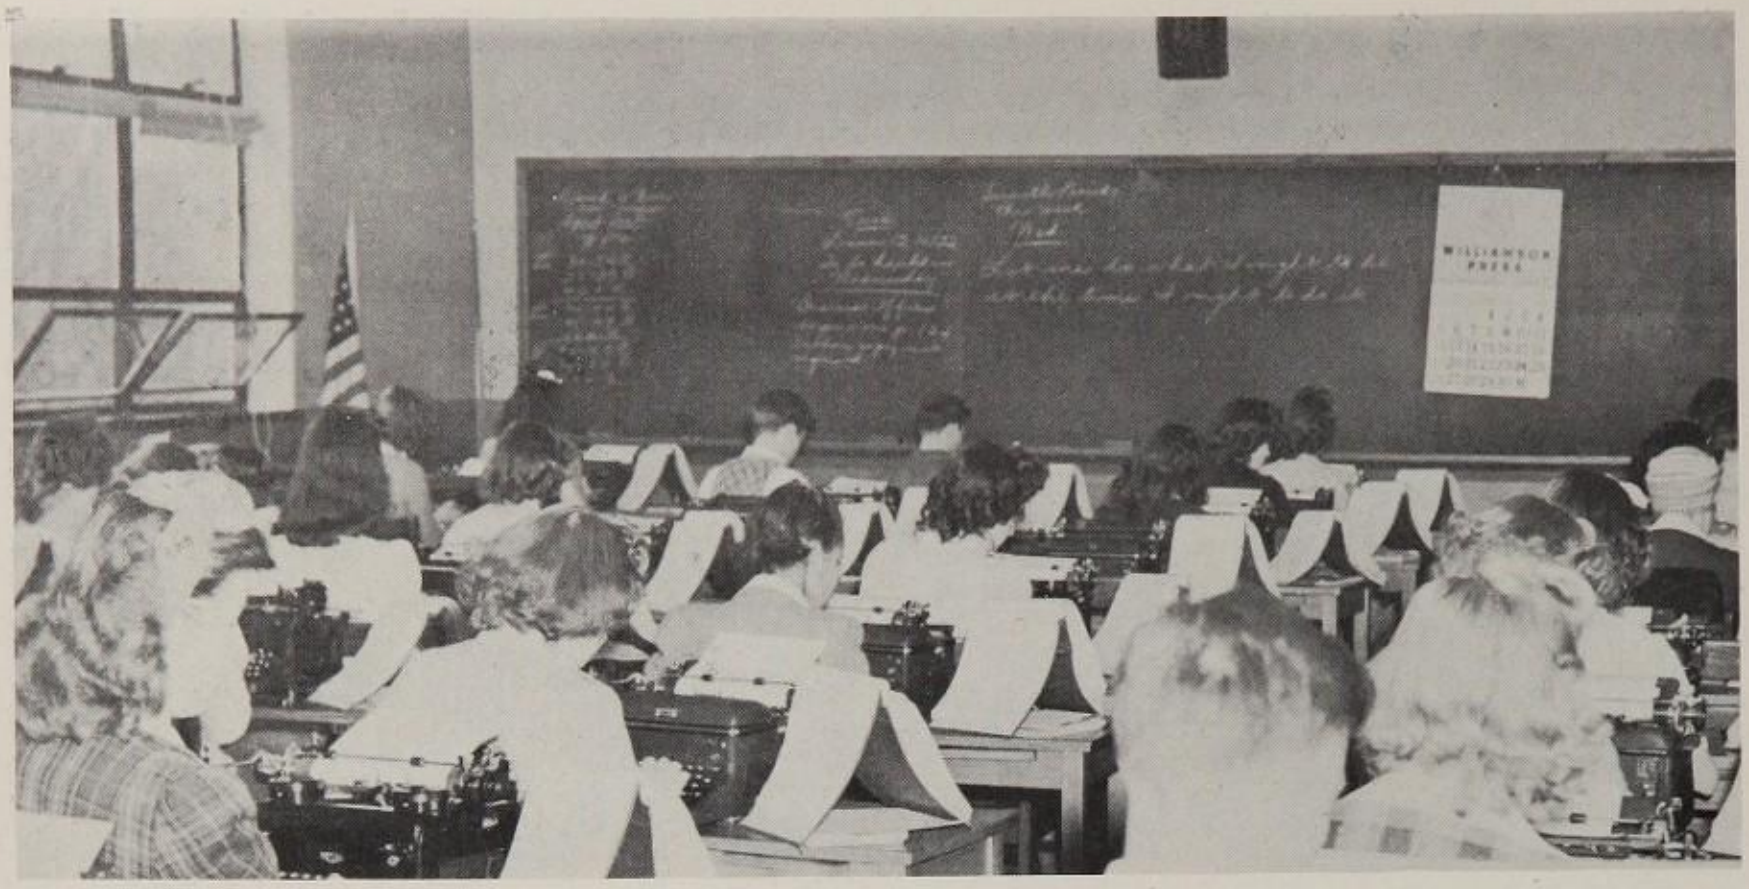
MATHEMATICS

In an effort to have more of our students prepared for the part they are to fill in the war and in peace, our department has added two courses this year. They are General Mathematics for all Freshmen who do not take algebra, and Senior Mathematics for Juniors and Seniors who have not taken the regular courses and who realize they should have some mathematics before graduation.

In all the mathematics courses speed, accuracy, and understanding are stressed. Problem solving is emphasized more than ever.

That students are realizing the value of mathematics is shown by the increased enrollment in advanced classes.

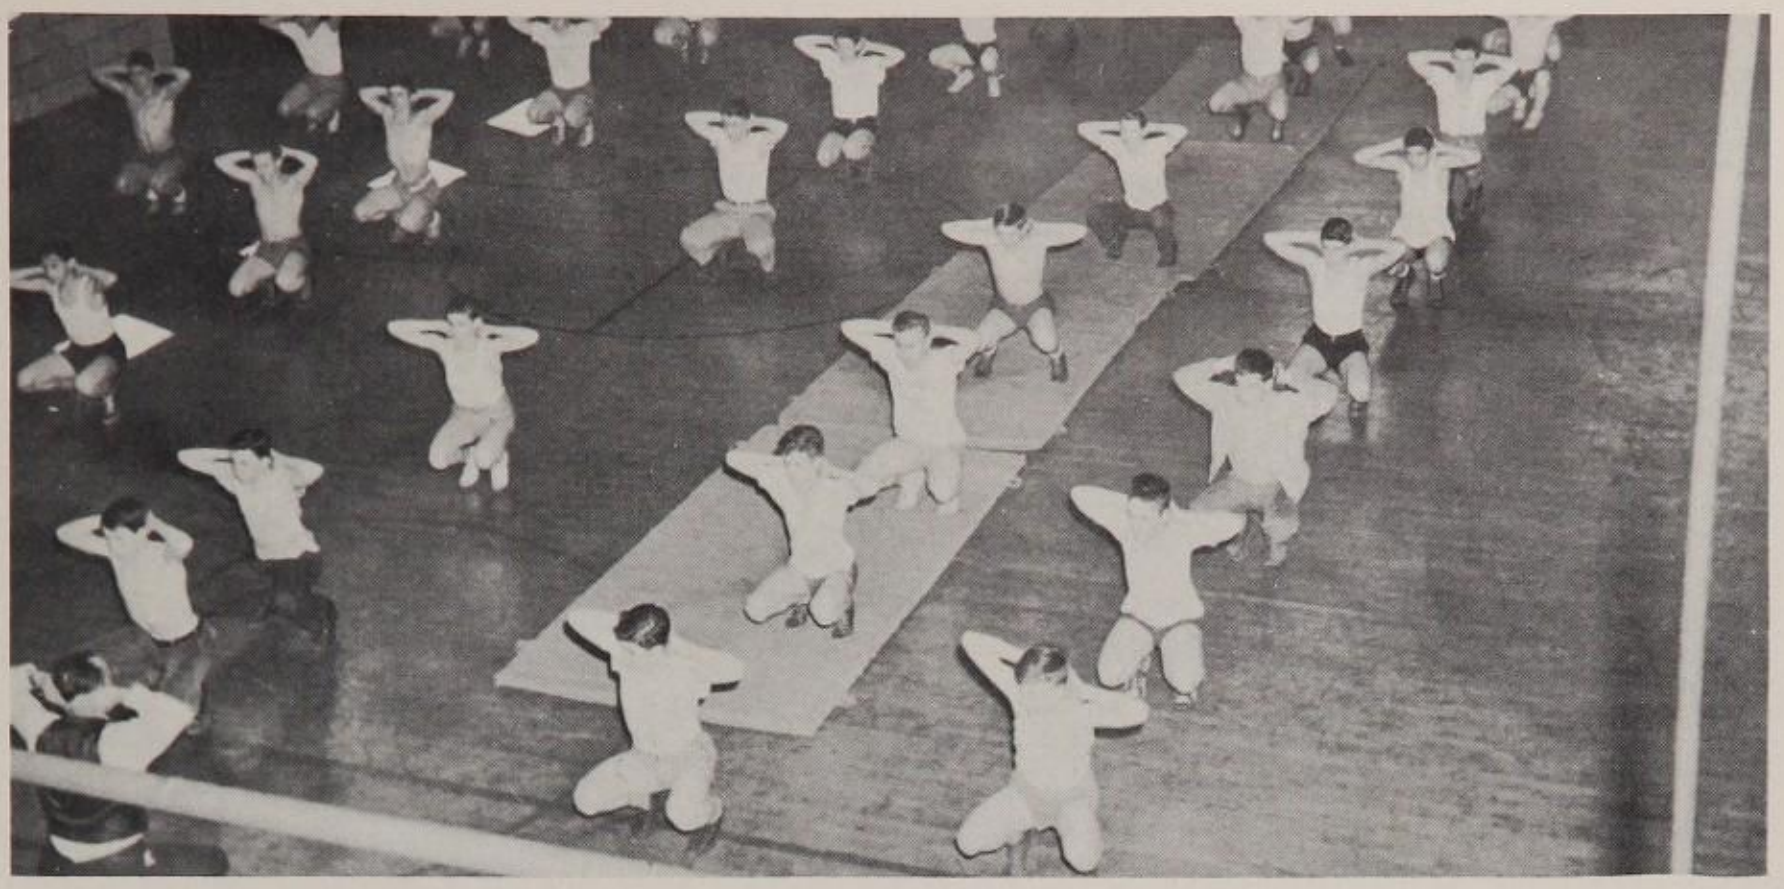




COMMERCIAL

The war emergency has brought commercial students an unusual opportunity. Employers are turning more often to them for help in keeping their businesses running. High school graduates are finding immediate use for their training in typing, shorthand and bookkeeping.

The commercial department makes every effort to develop the students' ability to produce work in quantity, and to know and practice effective work habits. Fourth-semester shorthand transcription has been made possible by an adjustment of the class schedule.



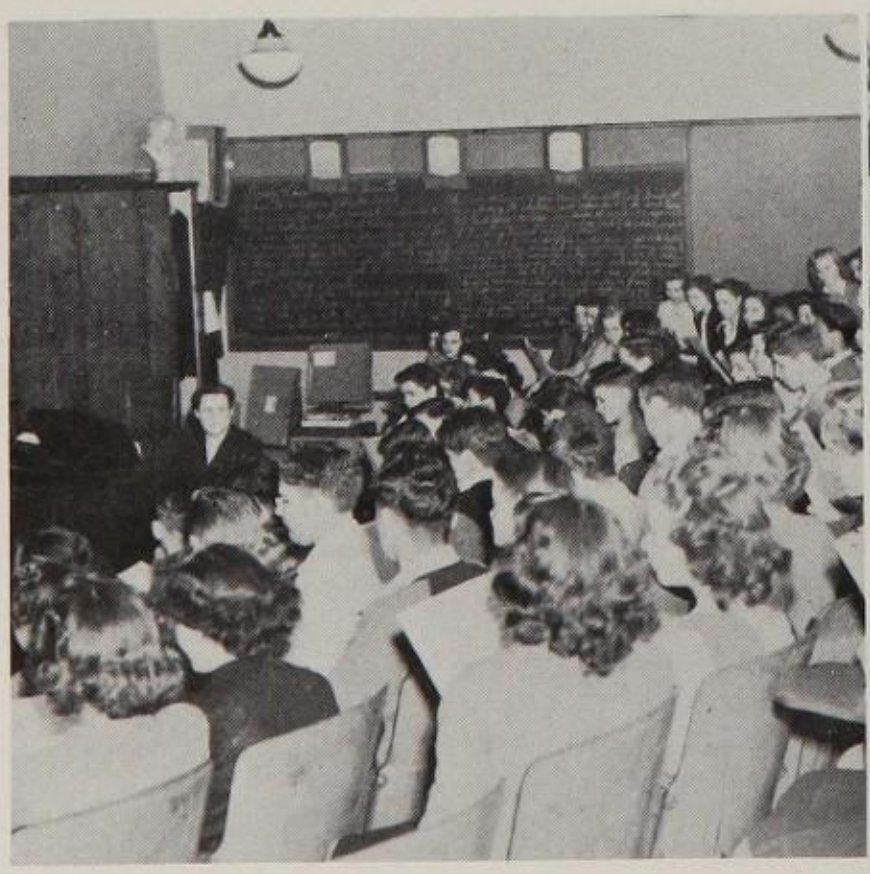
PHYSICAL EDUCATION

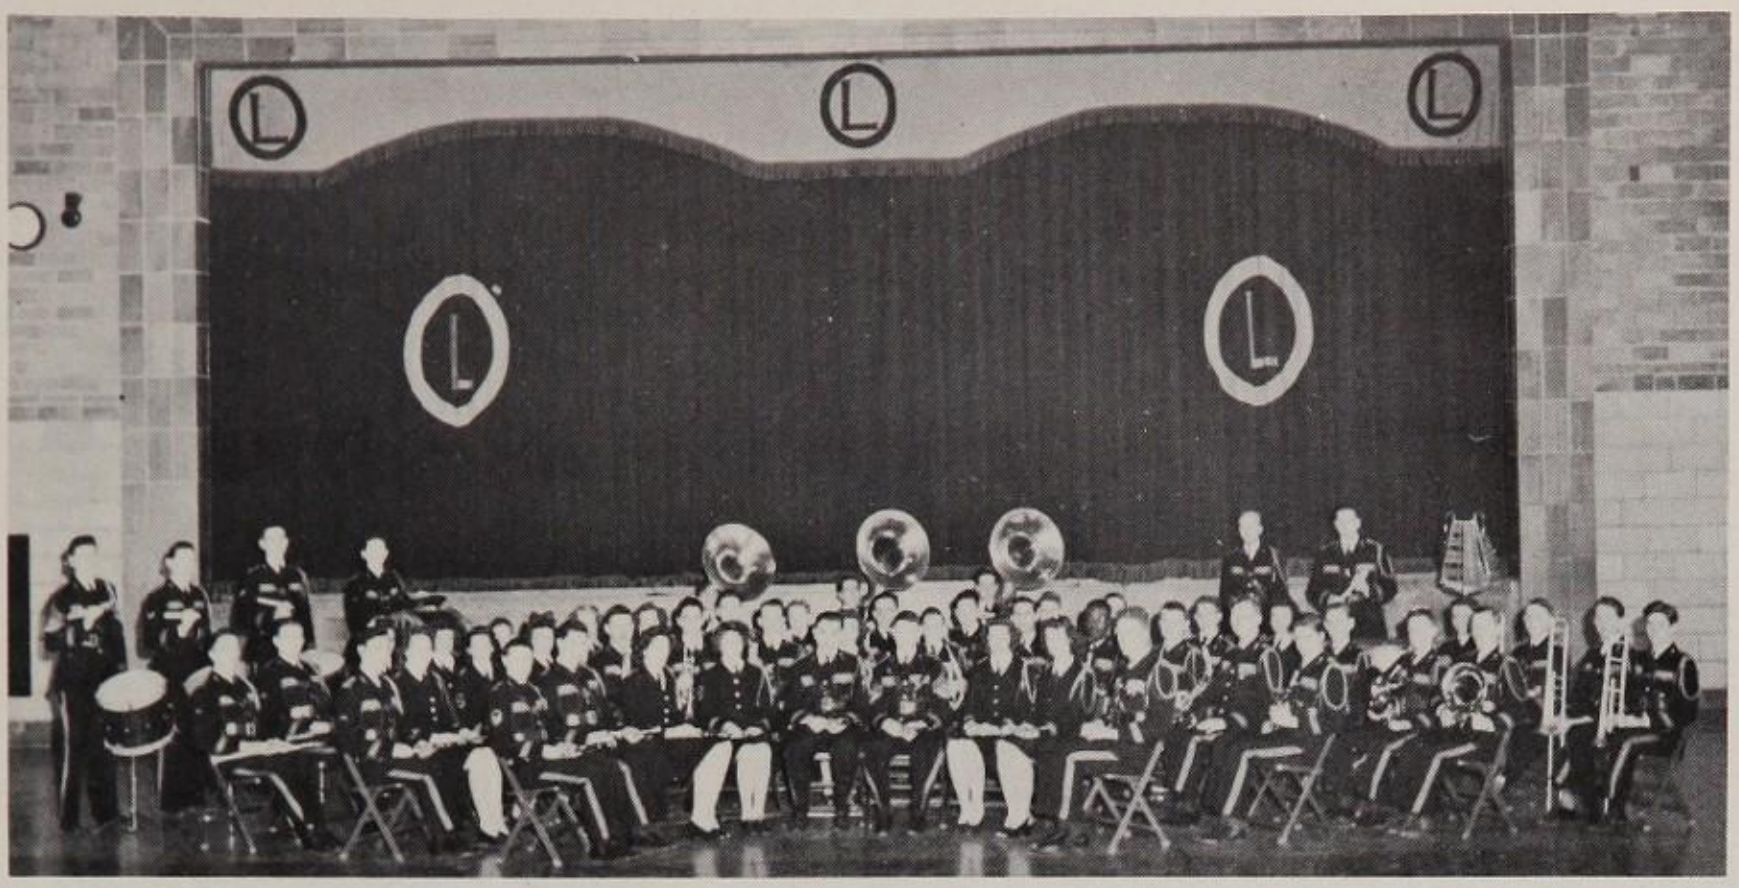
Using the theme "Victory Through Physical Education" the twenty gym classes of girls and boys enjoyed a program of great activity.

Cooperation in team play was stressed in all the numerous games of Freshman and Sophomore classes. The Junior and Senior girls worked on creative dances, badminton, handball, and archery in addition to team games. The boys worked on wall scaling and used the obstacle courses to get in tip-top shape. At various times during the year, films on pertinent health subjects were shown to the classes.

CHORAL

A Cappella Choir is a selective group with membership on the basis of tryouts. Qualifications, aside from a good voice, are ability to sing in tune and independence in part singing, and above all, a willingness to subordinate one's self for the good of the group. Self discipline is stressed. This year's activities have included performances for the Amateur Music Club, the Ceramics Club and an outdoor concert and carol sing for the Junior Chamber of Commerce. They sang for the sunrise Easter service at Lake Springfield, and gave their own Fall and Spring concert and annual Christmas Vesper.





INSTRUMENTAL

When spirit, color, and pep are the order of the day, the band is right there to supply them. This year's band has been tops both at the athletic events and in concert performances. Good music and snappy formations entertained our guests during the half at the football games, and there were always those popular tunes at basketball games to swing the crowd into a rousing song.

The spring concert and the band assembly were two real highlights in the season's activities.

AGRICULTURE

Instruction in vocational agriculture in Lanphier High School is designed to meet the needs of the boys whose homes are located on relatively small acreage. These boys are good examples of the independence of subsistance farms as an industrial agricultural combination.

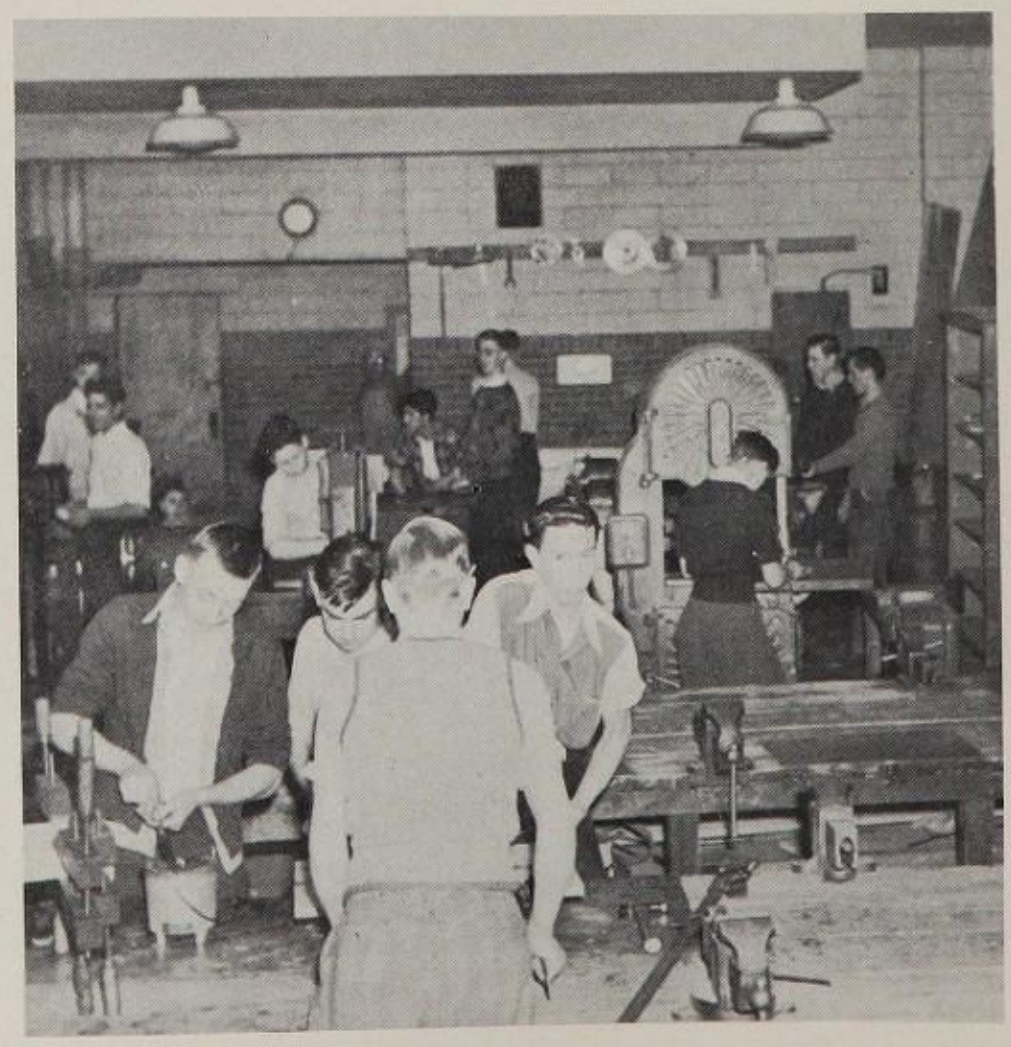
A practical worthwhile project program of gardening and livestock production, including poultry, is being carried on by each member of the class, the size and extent of each being determined by the area and equipment available to each boy.

INDUSTRIAL ARTS

The objectives of Industrial Arts are many.

They strive to develop in the pupil an interest in industrial life and the methods of production and distribution. He must learn to select wisely, care for, and use the things he buys. Self-reliance, self-discipline, cooperation and habit are considered important in the development of each student.

He is also taught to understand the fundamentals of mechanical drawing and to express his ideas graphically.



ART

Red Cross projects and work for the local U.S.O. in addition to banners and slogans, have furnished the patriotic portion of this year's art program.

The usual craft and pictorial work had been done in the classroom with emphasis on large picture compositions, some being sent to the local hospitals.

An Art Calender and the monthly P.T.A. tea tables have attested to the ingenuity of various art students.

LANGUAGE

To learn to talk with our neighbors to the south and even to sing with them, the Spanish class this year has spent much time in conversational practice, singing sambas and ranch songs, and reading about the fiestas and customs of Latin America and Spain.

The monuments of many yesterdays, although they are being hidden or destroyed in Italy and Greece today, will be preserved in the memories of the Latin students who read about the customs, work, art, homes, and amusements of the ancient Greeks and Romans.

LIBRARY

There are many books to be had in our library. Addition of many new volumes has aided in expanding our library to a complete, sufficient and up-to-date department of our school. Every subject is thoroughly covered in an excellent manner. All types of reference materials may be found in the form of clippings, pictures, and pamphlets. The recent re-arrangement and re-classification makes it possible for the student to readily locate needed material.

DISTRIBUTIVE EDUCATION

Distributive Education consists of merchandising in school and salesmanship in a store. Merchandising is a study of people and selling methods. A study is made of ordering, receiving, marking, displaying and selling merchandise. The various means of advertising are studied and practice is given in writing copy for all forms in this field. Human behavior is analyzed and an attempt is made to understand people.

CUSTODIANS

The janitors of Lanphier High School have always been an efficient and competent group. They receive little recognition from outside sources, yet their work has always retained the same high level through the school year.

Few students realize how much they have to depend upon this staff for clean halls, heat in the winter, replacement of lights, cleaning of rooms, and the placement of chairs for all of the assemblies.

CAFETERIA

In September, 1943, a new policy was inaugurated in the lunchroom. A balanced, hot plate lunch was served which immediately became popular with the students and teachers. The balanced diet, planned and prepared under the supervision of Miss Devlin, has made a definite contribution to the well-being of those who regularly eat there. This program has helped to build strong bodies as the work in the Academic courses helps build strong minds.

CLUBS

QUILL AND SCROLL

QUILL and SCROLL is an international honor society for high school journalists. Membership is awarded only to those students who have written, and had published, materials that are superior during the semesters they were actively engaged in publication work, and whose character and scholarship are above average.

Bi-weekly publication of the school paper, "The Lanphier Light" is the main activity of QUILL and SCROLL and the Journalism Class.

"The Lanphier Light" has been sent to more than two hundred and fifty former students of Lanphier, who are now in the service of their country, both here and overseas.

Officers are: president, Shirlie Dunn; secretary, Ruby Brewer; treasurer, Doris Callarman.

President ..... Shirlie Dunn
Secretary ..... Ruby Brewer
Treasurer ..... Doris Callarman
Advisor ..... Miss Bell

LANECON CLUB

The Lanecon Club represents the Home Economics department of Lanphier High; it is an outstanding example of what can be accomplished by a group of students. The purpose of the club is to provide a connecting link between home and school, and to train leaders for home and community life. The club is affiliated with the Illinois and American Associations.

Both girls and boys who have had at least one semester of Homemaking are eligible for membership. At an impressive candlelight service thirty-five new members were initiated. The club numbers over fifty.

The program theme this year was "The All-American Girl." Among the activities have been Christmas and Valentine parties, sponsoring "Courtesy Week," serving the Football Banquet, and a Mother's Day Tea. A picnic for all members was held at Lake Springfield on the last day of school.

President ..... Edna Baird
V. President ..... Winifred Benson
Secretary ..... Gloria Seward
Treasurer ..... Josephine Strukel
Advisers ..... Miss Wineman,
Miss Hopwood

ALPHA BETA OMEGA

The Math Club, under the sponsorship of Miss Raman, has just finished a very interesting and enjoyable season. This club is open to any student who has completed one year of mathematics. Initiations are always lots of fun and the new members are usually given the "works." Meetings are held every other week and are conducted entirely by the members. Each year the club has picnics in the Spring and Fall, and puts on a fine Christmas party. At the February meeting, Billy Randall, former math whiz of Lanphier, entertained the club with his "magic squares." Another interesting feature was a radio skit pointing to the advantages of a study of mathematics. The programs are all full of interest and eagerly looked forward to by each of the members.

President ..... Lillian Hall
V. President ..... Keith Goodwin
Secretary ..... Norma Najim
Treasurer ..... Barbara Piper
Adviser ..... Miss Raman

THE STUDENT COUNCIL

The purpose of this organization is to act upon problems submitted by homeroom representatives and, where possible, to put these suggestions into effect for the general welfare of the school. In giving the students a voice in the school administration the students are shown that the school is no better than they themselves make it.

The Lanphier Student Council is affiliated with the State and National organization of Student Councils.

President ..... Peggy Stewart
V. President ..... Herrin Zellers
Secretary ..... Orlena Hattenhaus
Treasurer ..... Norma Schwarberg
Adviser ..... Mr. Goby

DRAMATIC CLUB

The Lanphier Dramatic Club began this year with the following officers: Charliene Tucker, president; John Ingram, vice-president; Oswald Langfelder, secretary, and Sybil Janes, treasurer.

In September a picnic was held at Washington park and the new members were initiated. We had a lot of fun—remember? Mr. Hoffman came along with Mr. Jerald to help chaperon us.

On November 12th, "The Saturday Evening Ghost" was given as our annual fall play. The cast included Ward Johnson, Charliene Tucker, Bonnie Catherwood, Bill Newlin, Oswald Langfelder, Orlena Hattenhaus, Norma Jean Kornfeld, and Richard Connell.

Awards were presented to Sybil Janes, Kathryn Rogers and Charliene Tucker.

V. President	John Ingram
Secretary	Oswald Langfelder
Treasurer	Sybil Janes
Adviser	Mr. Jerald

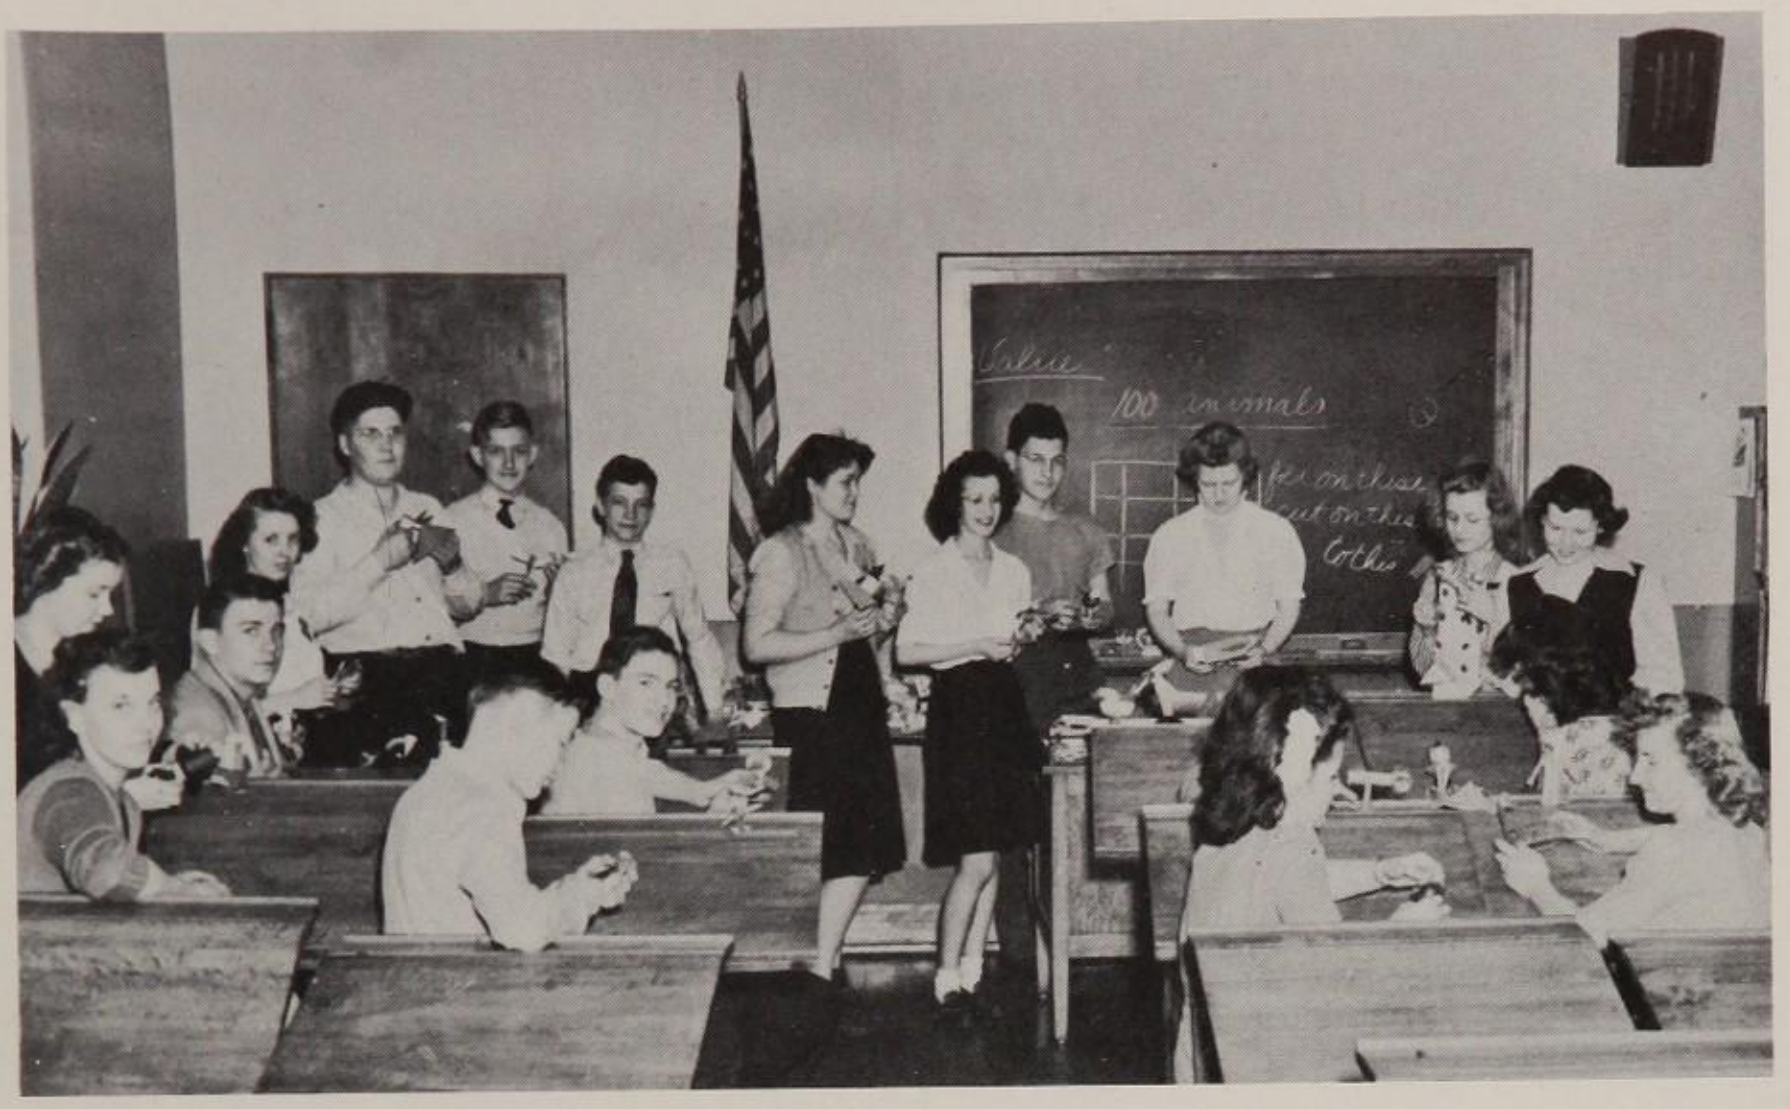
GIRLS' ATHLETIC ASSOCIATION

"Come on girls, get your team ribbons," sings out Anita Simanella, our basketball manager, as she begins another after school session of girls' basketball. G.A.A. membership is open to all Lanphier girls and its purpose is to give girls an opportunity to play and to practice good sportsmanship. This year G.A.A. girls managed the City-wide Grade School volleyball tournament.

Beginning with the "hobo hike" in the fall and extending to the "Posture Contest" held in the spring, G.A.A. members have spent a year of happy activity. The emblems worn on sweaters are earned with a real sense of achievement. For the fourth year award, two hundred points are required, and even the freshman who has just completed the fifty points for the first award, is justly proud of her effort.

President ..... Eleanor West
V. President ..... Delores Thrawl
Secretary ..... Juanita Bogue
Treasurer ..... Mary Hanauer
Adviser ..... Miss Jeske

THE ART CLUB



Members of the Art Club have presented an interesting series of meetings with original and clever programs after school in the Art room the second and fourth Friday of each month.

Club members made tags for the Cathedral-Lanphier basketball game which, when sold, netted them a worthwhile sum.

When patriotism no longer makes it necessary to keep out of traffic after school hours, the club hopes to return to its original plans. Then its members will be able to appreciate beauty at first hand as they view together current exhibits in the museums, and develop civic pride as they study the notable in their city's buildings and art treasures.

President ..... Betty Crowder
V. President ..... Walter Cruzan
Secretary ..... Frances Roehrig
Treasurer ..... Mary Sturgis
Advisers ..... Miss Kitch, Mrs. Leiber

GIRLS' ENSEMBLE

Girls' Ensemble is open each semester to eight girls from A Cappella Choir, admitted on a try-out basis. It is the aim of Girls' Ensemble to promote independence in part singing, beauty of tone, poise, and social ease which comes from public performance. Appearances before the civic service clubs, conventions, banquets, etc., are frequent. Each performance has to be the best possible in order to leave a good impression so that there is always an opportunity for a repeat performance either by the ensemble or a succeeding one from the school.

Members for the first semester: first soprano—Joyce Jenkerson, Peggy Stewart, Carol Alkire. Second soprano—Maxine Apblett, Barbara Piper, Betty Steele. Altos—Dorothy Shadid, Shirley Stevenson, Shirley Bringle.

Members for the second semester: first soprano—Peggy Stewart, Carol Alkire, Charliene Tucker. Second soprano—Maxine Apblett, Barbara Piper, Betty Steele. Altos—Shirley Bringle, Marilyn Whitmore.

BOYS' ENSEMBLE

Boys' Ensemble is organized along the same lines and procedure as Girls' Ensemble except that it takes definite form as a boys' double quartet. In this group performances are usually limited to appearances in Fall and Spring concerts and in contests whenever possible. The only reason for limited performances is the fact that many boys are engaged in work outside of school hours. This year's ensemble members are: first tenors—Bob Cain, Harold Barrow. Second tenors—Ed Erickson, Gus Marzinzik. Baritones—Chester George, Bob Allard. Basses—Don Huffman, Kenny Rodgers.

There is also a newly formed group, the Mixed Ensemble, composed of boys and girls. This group represented Lanphier at the contest held April 2nd at Lanphier. The members are as follows: Sopranos —Winifred Benson, Mildred Knaust. Altos—Shirley Jenkerson, Yvonne Wood. Tenors—Glen Brownless, Ken Stover. Basses—Loren Gullen, Glen Gasaway.

PARENT-TEACHER ASSOCIATION

Under the able leadership of Mrs. Wm. Londrigan, president, and Mrs. William Sousaman, program chairman, the Parent-Teacher Association has had a very interesting and worthwhile season. The theme followed has been, "What each department in the school contributes to the American way of life" and has had as its aim a better understanding of the work carried on throughout the school. The function and activities of each department have been portrayed largely by students. The art classes have arranged the tea tables for each meeting.

The P. T. A. has donated a scholarship in the Springfield Art Association to an outstanding member of the Art class, has contributed to the Illinois counsel scholarship fund and has a nice fund set aside to care for the dental project carried on during the summer.

Mrs. Sausaman has been elected President of the Springfield council of P. T. A.

President ..... Mrs. Alyce B. Sowle
V. President ..... Mrs. Jack Means
2nd V. President ..... Miss Jean Thomas
Secretary ..... Mrs. Pagiel McKee
Treasurer ..... Mrs. T. C. Goodwin

BOOSTER CLUB

In spite of extra responsibilities caused by war work, the Booster Club has carried on and now has a roster of about five hundred members. Among the projects sponsored by these supporters of the school was a parent night at one of the football games at which Mayor Kapp acted as master of ceremonies. Each year the club presents eleven scholarships of five dollars each to the most outstanding student in each department. Post war plans include many improvements for the school.

President ..... Mr. Wm. C. Shafer

SPORTS

CITY CHAMPS

AND

CENTRAL CONFERENCE CHAMPS

Although Lanphier is still a comparatively young school the trophies that we display on the landing prove that its short history has been a successful one.

Football has furnished us with the greatest number of championships, our teams have won Central Conference Championships in 1939, '40, '41 and '43, and City Championships in 1939, '40, '42 and '43. The Lions, this year, set a record of an undefeated season for the first time in the history of football here at Lanphier. The boys carried off the City and Central Conference Championships with a season of eight wins and one tie.

The basketeers also had a successful season on the hardwood with twenty wins and five losses. Our basketball teams have always been considered stiff competition and brought to our trophy case the City and Central Conference and Regional Tournament Trophies.

We wish the baseball teams, who won the City championship last year, the best of luck on the diamond this year and the years to come.

FOOTBALL PERSONALITIES

SECOND ROW—Iocca, Cain, Roberts, Rillman, Erickson, Race, Ramirez, Wertz, Coach Boyle.

Mr. Boyle, our baseball coach, predicts a very successful season for the boys on the diamond. Last year they tied for the City Championship and this year they hope to go one better—if the weatherman will give a little cooperation. The team will compete with the City High Schools and some outside teams. This year, for the first time in several years, there are tournaments to determine the State Champions in this sport.

TRACK

FIRST ROW—Baker, Saputo, Dufner, Murphy, Kasn, Hutton, Kockman, Taylor, Wilson.
SECOND ROW—Isringhausen, Casper, Robinson, Sgro, Poos, Kobialka, Dopp, Shelton, Murrill, Coach Dopp.
THIRD ROW—Harding, Lunick, Ramey, Marcum.
FOURTH ROW—Cain, Roberts, Stearns, King, Grigulonis, Adamski, Jenkerson.

More than fifty boys have answered Mr. Dopp's call this year. Practice has started and the early sessions give promise of some very fine material. In spite of the wet weather the boys worked out in the gym and were in fine shape when conditions were favorable for using the track.

Jim Murphy, who ran third in the District last year, hopes to be a finalist at the State tournament. The team will compete in the Central Conference, District and City track meets.

With so much fine material Mr. Dopp looks forward to a great season on the cinder oval with his thin-clads.

BOYS' GYM CLASS

The gymnastic team is made up of boys who are interested in activities such as tumbling, flying rings, and flying trapezes. Requirements to become a member of this team are: willingness to work and the nerve to try anything.

Some people have an idea that there is danger in this type of work, but with proper care of the apparatus, mastery of the exercises in progressive order, use of sufficient mats for landings, there need be no higher incidence of injury here than in any other sport.

That was candidate No. 4, leading the student body in a favorite yell during a pep assembly. From a group of nineteen candidates the students chose the following cheerleaders: Mary Jane Ford, Eileen Pierard, Jim Mehan, Orville Ewing and Ed Peacher. Jim went to the Navy and Julian Smith became a very capable substitute. They have all helped to inspire our team to that high morale exhibited at every game.
